Join me on BlogTalkRadio on Tuesday July 6, 2010 at 8:00 pm central time for the latest episode of "Consumer's Guide To Health". The health care system is facing a number of problems. If it's not a question of cost, it's a question of quality. And if it's not a question of quality, it's a question of accessibility and of value. The future of health care will see not only an evolution towards competent self care, but it will also see innovative changes in how health care is delivered.

This episode's special guest is **Dr. Sidney Robin**, a family practice physician in Austin, Texas and owner of [Austin Concierge Medicine](#).
